We will begin with some background knowledge on drop spindles (history, types, anatomy, weights and mechanics, and supplemental tools). Then we will get down to business learning the steps to spinning a single on a spindle, choosing a spindle and fiber, starting with and without a leader thread, drafting techniques, winding on and building a secure cop. After spinning for a while and fine tuning our technique we will explore winding off options, plying options, and how to finish your yarn. And yes, you will go home a spinner! This class is also great for wheel spinners who want to master the spindle!

**Required Skills:** None.

**Student Should Bring to Class:** Bring your own drop spindle. Don't worry if you don't have one, the instructor will have some for you to use and you can try different ones!

**Maximum Students:** 15  
**Total Class Fee (Includes \$45 material fee):** \$131  
**Location:** 4-H Building

**Class Description:** While Locker Hooking is certainly not as intricate, detailed, or exacting as so much of our fiber art world, it is a fantastic way to use up tons of stash or "questionable" yarn, wind up with a cushy, beautiful product, and experience the joy of almost instant gratification! (I'm especially fond of that last one!) Even ugly, scratchy fiber results in a beautiful, durable piece of art. Artists can add to the basic instruction by incorporating strips of material, ribbons, etc., to reflect their own imaginations. The instant gratification thing - this is a fiber art that goes quickly - students can actually see their progress as opposed to the delicate, ultra-fine garments lots of us never seem to get finished. Come, relax, and enjoy 😊 .

**Required Skills:** None – just the ability to follow step-by-step instructions & a bit of patience in the beginning  
**Student Should Bring to Class:** Students should bring pen/pencil, paper, scissors.

**Supplies Provided by Instructor:** Locker hook, prepared canvas, roving, binder yarns, various yarns, bound 28 page instruction book. Fun!
