The Spinning Circle is open to everyone - and not just for spinning!

Part of the fun of a 'fiber event' is socializing and meeting new friends. Bring your spinning, knitting, crocheting or whatever project you want - and join the fun!

Wool & Fleece Show

Breeders are encouraged to enter fleeces in **Fiber Fusion's Wool and Fleece Show.** It's a great opportunity to get valuable information on your fiber animals as well as the opportunity to sell fleeces to interested buyers.

Judging takes place on Saturday, Oct 21. Both breeders and visitors are able to observe the judging up close and hear the judge's comments as the fleeces are evaluated.

All types of fiber will be judged including
wool, mohair, cashmere, pygora, alpaca, llama, & angora.

Our 2017 Fiber Judge - Dawn Lantz

Looking for the perfect fleece?

You won't want to miss the Fleece Sale!

The sale will include both judged fleeces and unjudged fleeces of all types. While both judged and unjudged fleeces will be available, buyers benefit by knowing that the fleeces from the 'Wool & Fleece Show' have been subjected to critical evaluation.

Fleece Sale OPENS Saturday afternoon
and continues throughout the weekend, starting at 8:00 am on Sunday.

Fleece Sale Hours
3:00 pm - 6:00 pm Saturday
8:00 am - 4:00 pm Sunday

Visit the Display Hall for fleece judging, viewing and sale.

SATURDAY FULL-DAY CLASSES

9:00–4:00 Dyeing Techniques for the Spinner's Stash

Instructor: Liz Moncrief Cost: $100 + $20 material fee

We begin the lesson plan with a short discussion on color theory and will play with web-based programs to design our own colorways. These programs are free and available for smart phones, ipads, tablets, and laptops, so please bring yours along. If you don't own any of these, I can provide you with something to use in class. We will dye spinners roving, top, and fleece staples in this class using a minimum of three dye methods, which will constitute roughly ¾ of the class time. The remainder of the workshop is devoted to using my pre-dyed fibers to review methods in drafting, blending, combing, fracking and folding, plying and using your luscious colors when you get home. Participants are encouraged to bring spinning wheels and drop spindles for this fun exercise on how to best use what you've learned in class and the fibers that you'll be taking home with you.

All in all, this is designed as a 3-fold dye class which includes: 1) web-based designing, 2) actual hands-on dyeing, and then 3) spinning using techniques for drafting and blending.

9:00–5:00 Classic Wicker Bowl

Instructor: Kay Harradine Cost: $105 + $30 material fee

This basic bowl-shaped basket is an excellent introduction to the art of wicker weaving. The material is natural and dyed "reed" from the rattan vine. Learn the basic parts of the basket, how to weave a round base, add a foot, insert spokes, upsett, and wale! Choose a colorful pattern of stripes or swirls or checkerboard executed in twining, for the sides of your basket. The completed project is finished with a rolled border and is big enough for fruit or rolls at your table. More advanced students are welcome and can learn more elaborate weaves – something for everyone in this class.

Let's Eat!

Delicious food offerings are available!

The Caffeine Drip will provide coffee and latte service Saturday from 7 am to 3 pm and on Sunday from 9 am to 3 pm. Located in the Commercial Building.

Random Acts of Food will be serving delicious lunch items starting at 10 am each day. Look for the black food truck behind the vendor building!

SATURDAY MORNING CLASSES

9:00–12:00 The Mighty Small Loom

Instructor: Amelia Garripoli Cost: $60 (no material fee)

Pin looms have been around since the Bakelite days in the 1930's: the weave-it, loomette, and jiffy looms are still found at garage sales and thrift stores while the Zoom loom has introduced a new generation to this fun, fast weaving technique. We start with standard weaving methods on weave-its, then show how to modify it for a woven fringe. Then we look at bias weaving and woven triangles on these looms. The larger cousin to these is the potholder loom -- which can be used for more than just potholders, since we can use it just like its smaller cousins. Let's continue by exploring weaving with thicker yarns on potholder looms. We wrap up with a novel pin loom, the Danish scarf loom, and show how it is used to make a long continuous length -- its methods can be adapted to the potholder loom and 6" pin looms as well.

9:00–12:00 Forensics for Handspun

Instructor: Sarah Anderson Cost: $60 + $6 material fee

Even though every handspun skein of yarn is beautiful and usable (without technical perfection) you may have wondered just what could have been done differently to make your skein just a little bit better.

As knitters gain experience, they learn to “read” their knitting and understand better what they did. It’s pretty cut and dried with knitting but spinning is a different story. Just how do you know if your skein is under-plied, over-plied, could have used less twist in the singles, or more twist? How can you know after the fact which direction your singles were spun? Have you ever looked at a skein and asked, “What did I do?” and “Why does it look like this?”.

Bring your (not perfect) handspun skeins to this class and we’ll address your concerns with the goal of understanding not only what makes a good yarn for your purpose but also how to “read” yarn to see what you did as you were spinning. We’ll cover common problems and practice a little bit on our wheels or spindles to cement in lessons learned. This is a student driven class with a lot of Q&A so is a great class not only for spinners who want to increase their skill but also for budding yarn judges.

9:00–12:00 Art Yarn Carding

Instructor: Kim Perkins Cost: $60 + $20 material fee

In this hands-on class, Kim Perkins will demonstrate how to create textured art batts that are wonderful to spin. The goal of carding is to create a batt that spins up easily and gives you more color and fiber choices as well as more control of your finished product.

SATURDAY MORNING CLASSES

9:00–12:00 Learn to Crochet While Making a Fashion Scarf

Instructor: Karen Whooley Cost: $60 + $2 material fee

This is the perfect class for the the person who wants to learn to crochet or just brush up on their skills. In this class, you will learn to make three basic stitches, Chain stitch, Single Crochet and Double Crochet, all while making a scarf. You will go home with a good portion of the scarf made and the skills needed to complete it.

9:00–1:00 Stained Glass Scarf (Wet Felted)

Instructor: Anna Anderson Cost: $70 + $25 material fee

This is a fun class where the students will learn to create a very fine, almost transparent scarf, using a sandwich method of wet felting to interlock colors and designs between very thin layers of Alpaca fiber. Students will also learn special techniques to reduce fatigue on wrists and hand. Students will take home a finished scarf and tips and techniques to create many more. *NOTE – this is a four-hour class.*

9:00–12:00 From Fleece to Spinnable Form

Instructor: Barbara Seeler Cost: $60 + $20 material fee

What now! You have the perfect fleece, how do you get it to a spinnable form? You will learn how to wash (if needed), pick (if needed), and techniques to prepare roving from fleece locks. Preparation tools will include hand carding, English wool combing, and drum carding. Blending techniques for color and/or texture on all equipment will be explored. Spinning techniques related to each preparation will be discussed.

9:00–11:00 Basic Brioche Knitting

Instructor: Lisa Ellis Cost: $50 (no material fee)

Brioche is a series of yarn overs and slipped stitches to create a reversible, lofty and double-thick fabric, ideal for scarves, hats and blankets. Samples of the technique will be created in class and two patterns will be provided by the instructor for creating complete Brioche projects at home. Brioche knitting comes with new knitting terminology, gauge, fixing mistakes, counting row challenges and the need for the most elastic cast on and bind off's- all worth learning! We start and end with the backward loop cast on and the sewn bind off and practice basic 1 color and 2 color brioche.

SATURDAY AFTERNOON CLASSES

12:00–2:00 Introduction to Tvåändsstickning (Twining)

Instructor: Lisa Ellis Cost: $50 (no material fee)

Twining is a Swedish technique, in which both ends of the same ball of yarn are alternatively knit, producing a firm, wind and rain resistant fabric that's ideal for mittens, hats, ski gaiters and fingerless gloves. We'll cast on the 2 yarns, work a twined ribbing (so to speak) and finish with twined knitting. It's magnificent in a variegated yarn and is guaranteed to keep your head, hands and feet warm! Ironically, it also uses less yarn. Tricks of the trade will also be taught. It's a weekend project and the perfect gift.

2:00–5:00 Spinning Outside the Box

Instructor: Leslie Hoex Cost: $60 + $10 material fee

Students are to bring their own carded batts or carded art batts* to class and will take these to the spinning wheel and learn to "spin outside the box." Student will then learn to ply their singles into beautiful skeins of textured yarn. Leslie will demonstrate how to spin a simple single ply with a mix of fiber, how to incorporate locks and how to core-spin. After that she will show you several ways to ply your single such as spiral ply, loops, and stacks. Lastly, Leslie will explain to you the best way to set the different types of yarn you have spun and the different ways you can use your beautiful art yarn.

9:00 - 12:00 Nuno Felted Scarf

Instructor: Marisa Dobiash Cost: $60 + $15 material fee

This class will explore making a felted fabric scarf with natural fibers, silk and dyed merino wool. You will learn to felt these fibers into a base of silk gauze which will make a soft, warm scarf you will be proud to wear or give as a gift.

Free Demonstrations!

Free demonstrations will be on-going throughout the weekend and will cover a variety of fiber related topics.

The demo schedule will be available at the Welcome Desk and will be posted online.

www.fiberfusion.net/schedule-of-events.html

SATURDAY AFTERNOON CLASSES

2:00 - 5:00 Spinning Exotics

Instructor: Sarah Anderson Cost: $60 + $18 material fee

Forty years ago most of the fiber spun by handspinners came from local sheep. We brought it home in big bags and started washing.... Today we have available to us an incredible variety of not only washed and prepared sheep's wool but also almost every spinable animal fiber you can imagine. We call many of these fibers "exotics". In class we'll spin a few that come from far off places...Yak, Cashmere and Camel. We'll also try out our local exotic, Bison.

We'll spin examples of these types of fiber trying ways to draft that will bring success. We'll talk about fibers that blend or ply well with exotics to increase yardage from these precious fibers.

200 - 5:00 Turkish Spindle Tricks

Instructor: Amelia Garripoli Cost: $60 + $6 material fee

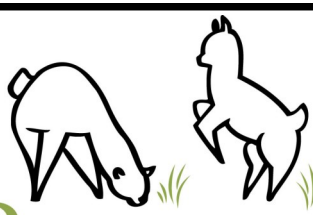
The pursuit of crazy things to do on spindles fuels part of my passion for these portable tools. So if you like having even spinners stop and ask you "what are you doing?" as you wander around the Fiber Fusion NW marketplace with your newest spindle, come and learn my favorite spindle tricks. We will start with some basic tricks, such as starting without a leader and removing thick spots. Then we will take on the challenge of long-draw on a spindle, yes you can! If having one spindle is your goal, but spindle weight is your issue, we will explore how to modify your spindle to get the spindle you want without harming your spindle.

If efficiency keeps you from your spindles, we will explore the wind-on and how to make it faster (and cooler looking, of course!). Then, we'll explore making and using a Navajo plying ball, bet you've never heard of those before! The real conversation-piece is throw-plying; a sure attention-getter. We'll wrap up with a Turkish trick that will have you packing your favorite Turkish spindle that never used to leave home for your next trip without worrying about a broken shaft ever again.

3:00 - 6:00 Beginning European Sock Knitting

Instructor: Lisa Ellis Cost: $60 (no material fee)

Every knitter wants to learn how to knit socks. Socks is to knitting as ballet is to dance, it's the core of knitting. Once you can knit socks, you can knit anything! We'll learn to knit socks the traditional European way, using 5 double pointed needles AND without a pattern! We'll discuss basic sock construction and the simple math behind the sock. We'll walk through the process step by step from the sock cuff to the toe grafting! Once you take this class, you may never need another sock pattern again!



Pronkin' Pastures

Alpaca Ranch

Quality Alpaca Roving & Yarn

100% alpaca and alpaca blends.

Handspun, mill-spun, natural colors and hand-dyed.

Raised and produced on Whidbey Island, WA

www.pronkinpastures.com

Complimentary Yarn Winding Station!

Don't take those lovely hanks & skeins home without being able to use them right away! Be sure to stop by the Yarn Winding Station (across from the Welcome Desk) before you leave.

It's easy and free!

Many thanks to the **Snohomish Knitter's Guild** for hosting the Yarn Winding Station!

SUNDAY FULL DAY CLASSES

9:00–4:00 Introduction to Natural Dyeing

Instructor: Janis Thompson Cost: $100 + $15 material fee

Learn how to Mordant, Extract Dyes and Top dye with Indigo. Like making a cup of tea, we will extract from a variety of ingredients such as Onion, Fustic, Brazilwood, Cochineal, Alkanet, Madder & Indigo! We will be mordanting wool yarn plus silk fabric and some cellulose - either linen or cotton. Each student will leave with complete sample card to use as a reference. ALL non-toxic mordants and dyes. Lots of info for beginners and a great "refresher" class for the returning natural dyer.

9:00 - 4:00 Felting Wearables ~ Mittens and Booties

Instructor: Liz Moncrief Cost: $100 + $18 material fee

In this fun and fast paced. workshop, students will be able to choose between mittens or booties for their project.

We'll learn the primary methods used in flat felting – which is really a misnomer. Flat felting is anything that is not felted in the washing machine or needle-felted. You can make fitted booties and slippers, mittens, hats, purses, and landscape tapestries using whatever color combinations you'd like. This workshop is truly for the creative hand and heart and it utilizes methods that have evolved over thousands of years by countless civilizations.

9:00–5:00 Splint Woven Basketry

Instructor: Kay Harradine Cost: $105 + $25 material fee

Splint weaving uses flat weaving elements to create lightweight practical baskets. One set of basic weaving skills can be used to make round, square oval or even heart shaped baskets. A lashed border adds a sturdy rim and simple wrapped handles can be added. The weaving material is natural flat reed with dyed materials for accent. Make two small or one larger basket in class.

Visit our website for detailed class descriptions, on-line registration, and class supply lists.

www.fiberfusion.net

SUNDAY MORNING CLASSES

9:00–12:00 Beginning Wheel Spinning

Instructor: Barbara Seeler Cost: $60 + $15 material fee

Students will create wool yarn from roving, both singles and plied, using a spinning wheel. Students will learn how to care for and adjust their wheel for maximum performance. A spinning wheel in working condition is required. Please contact instructor prior to class if you have a wheel that you wish to use but it is not in working condition. Some spinning experience prior to this class required. A class in hand spindle spinning highly recommended as a prerequisite for this class. Sufficient fiber included with class fee to learn concepts.

9:00 - 12:00 Tunisian Crochet

Instructor: Tandy Imhoff Cost: $60 + $15 material fee

Learn how to create sturdy crocheted fabric that mimics the look of knitting or weaving, yet can also produce amazing lace designs as well. Students will learn a minimum of five Tunisian crochet stitches and will receive a handout with full stitch instructions and a lace scarf pattern.

9:00 - 12:00 Braided Wool Pad/Rug

Instructor: Amelia Garripoli Cost: $60 + $8 materials fee

Your basic three-strand braid can be used to create a lovely rug or pad from wool roving. These types of rugs date back to colonial days. In this class we'll braid, felt, and sew a mug rug to learn how it's done. This is a great way to use medium and coarse wools to create useful goods. No prior spinning, knitting, or felting skills are expected; if you already know how to braid, that's great! These are made from wool roving by drafting, braiding, felting, and stitching.

We step through the process and by the end of the workshop, you will have a braided mug rug. Fiber and tools (they're basic) will be supplied.

9:00 - 12:00 Pickin' Spinnin' Grinnin'

Instructor: Kathy Martin Cost: $60+ $25 material fee

We will demonstrate how to use a triple picker to pick kid mohair locks and then spin from a handful of fluffy fiber. Triple pickers can be frightful looking and some say they will ruin your fine fibers. Used carefully and gently, pickers are a great tool to prep mohair especially. Spinning straight from the handful can create a thick/thin, straight/curly artsy yarn. The spinner will learn how to create this art yarn in a fun and stress-free environment.

SUNDAY MORNING CLASSES

9:00 - 12 : 00 Blending Board Magic

Instructor: Allison Harding Cost: $60 + $15 material fee

Learn how to use your blending board to build amazing fiber and color mixes into punis, rolags, batts and roving. From beginner to advanced, you'll learn how to apply different types of fiber using layering, spotting and brushing to create gradients, stripes, textures, fractals and fancies. Learn how to use different tools with your board and how best to spin each preparation to make the yarn you want!

9:00 - 12:00 Advanced Rigid Heddle Weaving

Instructor: Karen Chabinsky Cost: $60 + $3 material fee

Now that you have learned to warp and weave on a rigid heddle loom, this is a good time to take the next step and learn some advanced skills. This class will show you how to use various hem stitching techniques to finish your project, use a pick up stick to create lace weaves such as Brook's Bouquet, Spanish Lace, and Leno. If there is time we will also include Danish Medallion and techniques using loops.

11:30 - 1:30 Beginning Knitting

Instructor: Lisa Ellis Cost: $50 (no material fee)

This class is for our fumbled fingered friends who don't think that they can knit. Class covers all the essentials to start and finish a scarf. We start with a long tail cast on, learn to knit and purl and how to bind off the stitches. Recognizing stitches, right and wrong sides and understanding how to read gauge is thoroughly covered in class as well as basic reading patterns and knitting abbreviations. This class is also ideal for self taught knitters or anyone that could use a refresher course. No one will be left behind in this class!

Fiber Fusion thanks all of these fiber producers and businesses for generously sharing their animals and their knowledge.

SUNDAY AFTERNOON CLASSES

1:00 - 4:00 Success in Plying

Instructor: Sarah Anderson Cost: $60 + $12 material fee

We spend so much of our time spinning singles that plying the yarn can wind up being thought of as just a necessary nuisance. Plying, in reality is a very important part of making yarn. With plying comes balance and the opportunity to create different types of yarn from the same singles.

We'll discuss twist (active, dormant and balance) and how the amount of twist in your singles and plied yarn affect the yarn's hand and function. We'll practice strategies for plying and make sample skeins that will bring you understanding and success.

1:00- 4:00 Power Spinning

Instructor: Amelia Garripoli Cost: $60 + $8 material fee

Does your electric spinner run away with your yarn, get miles ahead of your fingers, or just not make the yarn you're thinking of? Whether you come from spindle or wheel or have only spun on e-spinners, work on your e-spinning technique with hands-on tips. Take control of your e-spinner and see what it can do. Art yarn to laceweight, casual or production spinning: we'll put our e-spinners through their paces.

1:00 - 4:00 Beginning Spindling

Instructor: Sari Peterson Cost: $60 + $10 material fee

You will learn how to draft fiber and spin using a drop spindle. This spinning class will have you see yarn and fiber in a new way! The spindle class will begin with basic skills of spinning wool to produce a single ply yarn. Advance skills will include plying, skeining and preparing your yarn for knitting or future projects.

Pre-owned fiber tools & equipment!

You never know what treasures and deals you may find, but if it's fiber related, it may be there!

The Used Equipment Sale is in the Display Hall.

SUNDAY AFTERNOON CLASSES

1:00 - 3:00 Knitting with Silk Hankies (Mawata)

Instructor: Barbara Seeler Cost: $50 + $10 material fee

Learn how to knit directly from silk hankies. Students will learn how to separate a few hankies from the supply, attenuate the silk into fibers that can be knit just like yarn. They will sample different dye patterns in the silk hankies to see what the pattern will look like when knitted. They will also learn what knitted stitches/patterns are appropriate for this technique. Using beads in knitting will also be demonstrated

1:00 - 3:00 Weaving Techniques and How to Stay Sane

Instructor: Karen Chabinsky Cost: $50 (no material fee)

If you are a new weaving and are still struggling with your warp, or have been away from weaving for a while, this class will provide you with a refresher and review of the various weaving gone wrong issues we all experience. You will gain a wide range of knowledge as we review warping from start to finish. You will learn how to make your warping easier, do more accurate threading, creating a solid beamed warp, and how to fix the various issues such as broken warp threads, loose tension, etc.

1:00 - 3:00 Needle Felted Flower

Instructor: Anna Anderson Cost: $50 + $15 material fee

Create a cute hairclip or brooch using a variety of dyed longwool locks, sparkly Angelina, Merino wool and needle felting tools. The finished flower will show off the unique qualities of the different locks chosen. This is a fun beginner class to introduce you to the joy of needle felting. Great class for beginners, or novice felters who want to experiment with using locks. Students will leave with two finished flowers, and all of the tools, tips, and techniques to create more at home .

2:00 - 4:00 Norwegian Thimble Color Stranding

Instructor: Lisa Ellis Cost: $50 + $2 material fee

Color stranding sounds like a nightmare - but with the Norwegian thimble, it's super easy. This class begins with basic 2 color stranding and progresses into 3 color stranding (optional). We'll cover how to follow a chart, how to prevent puckering, and understanding color dominance as well as numerous ways to use the Norwegian thimble. The class sounds so much more difficult than it really is - yet you'll walk away with advanced knitting skills and a huge grin!

Fiber Arts Show–and more!

Calling all fiber artists!

Do you spin, knit, crochet, weave, or felt? We would love to see your work and invite you to participate in one (or both) of our options to show your creations!

Consider entering your handspun yarn or handmade articles in the **Fiber Fusion's Fiber Arts Show.**

This is a traditional Fiber Arts Show where entries are judged and scored by a qualified fiber arts judge. Participants get great feeback on what's great about your piece and what to try next time. This year's judge is Karen Chabinsky.

Consider having some fun with our newest offering …

Make it Yours– a theme-based creative project!

In effort to be a more all-inclusive show, our stitch-along has been replaced with a new idea that allows ALL types of fiber enthusiasts , of all skill levels , to participate!

Each year we will offer a project with a different theme. There isn't a particular pattern, just a theme to follow and let your creativity flow!

The theme for this year is: ***"It's in the Bag"*** In this scenario, each participant creates an entry that reflects the theme of *"It's in the Bag"* using any pattern or design they like, using whatever fiber technique(s) they choose - to create any type of 'bag'.

Unlike the Fiber Arts Show entries which are judged, In the Bag entries aren't judged, but put on display to showcase natural fibers and many creative uses!

Located in the Display Hall, be sure to check out all the creative entries!

Visit our website to learn more–
and participate in next year's creative endeavor!

grow NORTHWEST

Grow Northwest is a free monthly paper rooted in community and practical living, featuring all local content for and about our northwest corner. Content includes farm and community profiles, DIY projects, simpler living, cooking, adventures, gardening, crafts, events, and more. Grow serves the northwest corner counties of Whatcom, Skagit, Snohomish, Island and San Juan. We are independent, family-owned and 100% locally grown.

Grow Northwest - PO Box 414 Everson, WA 98247
360.398.1155 - editor@grownorthwest.com

Don't forget to purchase your raffle tickets!

Participate in our unique raffle for a chance to win the prize of your choice! Each of our vendors has generously donated an item to our fundraising raffle, so there will be over 60 fabulous prizes to be won over the course of the weekend!
Winners will be drawn each hour starting Saturday morning and continuing throughout the weekend.

Tickets are $1 each - Purchase them at the Welcome Desk!

Fleece judging… you're invited!

Stop by Fiber Fusion's fleece show and learn from judge Dawn Lantz. Both breeders and visitors are invited to observe the judging up-close and hear the judge's comments as the fleeces are evaluated. It's a great learning experience!

Fiber Fusion Northwest is open to the public.
